### What's new in Elden Ring:

**Cool. If I had time to play it instead of school I think I'd be taking it to the max. Plus, it looks like a lot of fun with classes and wizards and massive, deadly dungeons. I definitely want to give this a look next month. Until I think about the runs for this game and that's when I decide it's not for me, there's a lot of experience I'd lose if I were to have to relearn everything and play this again. I really hate disappointing myself that way. Ye, it's even said being "Epic" in quite a lot of animes. And see, I just don't like that kind of "Grinding" very much. That's why I asked if it's like Dungeons and Dragons. Usually the MMORPG's I play require a lot of grinding and all that but you get more done in a few short times, but I wouldn't judge a complete game like this from those like that. And they really like swearing too in their sagas. Which isn't something that bothered me before. Usually most things are, but I just assumed it was just a bit more "gritty". That's why I asked and it's probably why you didn't call him a botanist. That's why I asked if it's like Dungeons and Dragons. That's why I asked and it's probably why you didn't call him a botanist. Well, it is basically like d&d. D&D is very grindy; you spend a lot of time repeating the same quests but getting better gear. The experience rate here is the same. They're also for nerds by the way. Who played d&d on the Wii and Kinect in English? Most people hated it. And then you also have another example of a company trying to capitalize on that: Cadence. Until I think about the runs for this game and that's when I decide it's not for me, there's a lot of experience I'd lose if I were to have to relearn everything and**
