North Korea has accused the United States of "terrorizing" its citizens with "fire and fury," and the country's ambassador to the United Nations has called the joint U.S.-South Korean military exercises an "attempt to ignite another war on the Korean peninsula." "The current situation on the Korean peninsula is to our regret, is a dangerous confrontation between the DPRK and the U.S. mainland," said Jo Song-gil, the country's ambassador to the U.N. "The U.S. is the pre-eminent threat against peace on the Korean peninsula and the world." In a letter to Secretary of State Rex Tillerson, Ambassador Jo claimed that President Trump's threats to North Korea are "unprecedented" and even compared Kim Jong Un to

Nazi Germany. “The president of the United States says openly he hopes to end the life of a person he considers his enemy,” Jo said. North Korea’s Vice Foreign Minister Kim Kye-gwan also said that Kim’s rhetoric was “to force the United States to beg for peace.” “The DPRK is willing to completely end the useless and never to be repeated by any states

Features Key:

- Win the Ultimate Mode and Reveal the Bronze, Silver, Gold, Platinum and Diamond versions of HITMAN 2 by the end of the year. That means you’ll be able to own HITMAN 2 in four different versions (Bronze, Silver, Gold, Platinum & Diamond) by the end of 2015. All four versions are compatible with the base game and standalone content.
- Take on 400 unpredictable Contracts throughout the world over the winter, taking on new challenge missions that are purposely timed to coincide with the Holiday season.
- Add new weapons to your playbook, including a new explosive “Bombmaker” attachment that lets you customize your explosive devices or attach Frag Grenades to create an explosive shrapnel cocktail that will keep targets awake and screaming all night.
- Continue exploring the vibrant, open game world, the island of Europa, H.I.V.E. Island and new environments like London’s Olympic Park, Moscow’s Red Square and Rome’s Bathhouse. Defend yourself along a Tokyo Bay Tsunami, ski down a mountain and lay waste to a luxury beachfront resort.
- Discover a new troublemaking crime lord and repeat your favorite Contracts any number of times. And the best part? Each chapter in HITMAN 2’s story can be played through again as a free bonus to unlock the Gold HITMAN 2 version of the game.
- Experience dynamic, high-impact takedowns in free-flowing action — set-piece sequences that require you to think like a spy. Interact with the world through peripheral vision and use subtlety and instinct to assassinate your targets.
- Break out of a high-pressure situation with an arsenal of inventive disguises that let you fool everyone, including your own targets.
- Sneak past guards and use acrobatics, parkour skills and the environment to navigate challenging new territories.
- Perform precision strikes using a multitude of stylish disguises and weapons while being protected by an active health system and multiple armor layers. Combine your attacks with a wide range of deadly finishing moves for added Sanity damage when the time is right.
- Be prepared for anything because the environments in HITMAN 2 will give you no quarter. We’ve built a unique sandbox game that is unconstrained and

What's new in Singulive:

In the last chapter of the original game, the Relics once again attain their powers in battle. It is up to the heroes to reunite, and to wager the future of the world on them! Zero is an icon in the rising Japanese PC game scene, and its eight-year-old history is blossoming. Next to this much-beloved franchise lies its “Remix” project, which is a “Rebirth” of the story that pushes the boundaries of the original experience. It is a “stream of thought” game of many different cases and stories scattered in the range from modern life to the pre-historic stages in which humanity struggled to find ways to survive. Remix is also a character-driven story that presents the story of a “purifier”, a boy who is tasked with returning the world to its natural order after the outbreak of the epidemic Seven Days of Darkness. He finds out about the power of the Relic in combat. The right Relics with the right Seven Days of Darkness—that is the ultimate Purifier (laughs). Among the Relics and Seven Days, there are many twists and evolutions. The original Famitsu “Remix” article The Famitsu article: “When the Relics meet the power of the world”: 1. Remaking the game The game starts by allowing players to select a class for a “no-brainer character”. I’m bad at thinking in character, so I try to play it straight. As a character improvement, the AI is

improved. A playthrough of the story will be about three hours long. *In the PC version of the game, when the hero is asleep, they don't take damage from enemy attacks. There will be a game with that fixed. The original game has something much more complex, such as the "Beggar" (a status that happens when there's no money in the character's pouch). *I believe that you can earn money by collecting items—rare treasures that appear in battle. (laughs) Another feature of the original game that will return in some form is the no-capture-card glitch, where the enemy forces you to capture their cards to reveal their cards. *The game's AI accuracy is beyond compare

Unusual Findings! is a humorous mystery game with a supernatural theme where it's possible to find the exact item you need to start on your mysterious mission. To find it, you'll have to solve the entire adventure by using your brain, not your hands! The game features a variety of unusual objects that are scattered throughout the town; these objects are essential to the game since they need to be collected throughout the game in order to progress. You need to find and collect the items you need before you can complete the puzzles and solve the mystery. Unusual Findings! is a game that is all about strategy. It's meant to be played as a puzzle game, but it doesn't ignore your will or interest in playing, so it's an interesting game that will keep you laughing. Take part in one of the most mysterious games of the year, find your next best friend in a town full of friendly and curious beings... Key Features: - Unique gameplay: trying to find the objects to make the whole game a success is not enough. There are some objects that you have to collect in order to progress in the game. - A hilarious story: a mysterious truth. Can you solve it? - Comic attitude: we've taken a classic action-adventure-puzzle concept and we've added a supernatural twist to it. You'll have to find and collect the key objects throughout the adventure. - The old school meets new toys: a classic point-and-click adventure with a unique style and a set of new interactive features. You can use your magical hands, but you can also find the objects with your brain. The game is more than just puzzles, it's a whole story. - Difficult gameplay: no hand-to-hand combat, no exaggerated violence. - Attractive and distinct graphics: smooth animations, detailed character models, stunning backgrounds. - Original art design: carefully drawn, hand-painted and hand-illustrated by Francisco Dos Santos. - 16:9 widescreen display support with customizable resolution. - 3 difficulty levels, ranging from easy to very hard. - Music and sound effects: a combination of comedy and interesting sounds to please your ears. - Challenge us on our Facebook page, or on Twitter: @ruizcom
