A lightweight, portable application to display the drivers installed by Microsoft and third-party software. The tool lists drivers and installed software on your computer. It displays information on drives and includes a filter for selecting specific drivers. It also reports copyright information on the drivers and software included. Important: This driver is no longer available as we have moved to a new service. The previous service was provided by a third-party service which was struggling to keep up with demand. We are indebted to them for providing a service we could always rely on, but as we needed to move to a better service provider, we would no longer be able to provide the service for free. Users who purchased the previous service do not have access to this version of the app. Download Filter Driver Load Order 2.0.0.113 FAQ About Filter Driver Load Order 2.0.0.113 Q: Why am I getting the "This application has failed to start because...
