MANAGING STUDENTS IN SCHOOL: School Track is an attendance management system that can scan and track student ID badges in real-time. It provides various fields for parents and principals to record student record information in the school attendance database. The attendance is then automatically updated each time the students access the school. The attendance report is also instantly generated, so you can have an accurate and timely report of attendance in real time. System Design: The attendance database tables in School Track are frequently updated through several built-in SQL (Structured Query Language) procedures. The database tables are designed to track student in each class, for each day and for each school period. The attendance report can then be generated within seconds for attendance, tardies and warnings. Attendance reports can be saved as Excel or PDF format, and can be

sent through e-mail to parents or principals automatically. **MEASURES ATTENDANCE:** School Track's main purpose is to accurately track and record student attendance in school. Attendance is counted and tracked by scanning student badges. The attendance reports can then be automatically generated to identify and record tardies, attendance, and warnings. Attendance can then be viewed on the class roster automatically through the attendance-tracking process. Each badge is assigned to its own class roster. The attendance report can then be generated easily from the attendance-tracking process. Classrosters can be generated for each teacher or for the whole school automatically, and can be saved into PDF format. **ADVANTAGES OF THE SYSTEM:** For complete and accurate attendance information, all students are required to wear a scanned badge. School Track can generate the attendance report for attendance, tardies and warnings automatically with the attendance-tracking process. The attendance report can be viewed on the class roster. Student records can be accurately and quickly updated by scanning student badges. School track also supports automated attendance mark-in and out. You can assign and manage detention for students who repeatedly fail to be at school on time. **PATIENTS CAN EASILY TURN IN BADGES:** The attendance ID cards and badges can be issued to students manually. They do not need to be issued automatically. This way, students can easily turn in their badges and attend school during any time without worrying about badge theft. The attendance database can be backed up, and a new database can be imported easily. School Track can also automatically generate a temporary badge for a student who cannot wear a scanned badge. You can issue
