In 2016, the Indian bollywood actor Amitabh Bachchan plays a bodyguard who is not only fighting a. Thinking about what happened to Tesla in the US this year, and more generally about the latest big automotive development around the world, led to an obvious question: where are the Chinese automakers? For me, the big question is whether the i-brand Chinese automakers can become the credible alternative to their US counterparts, who were the first to show the world that a mass-produced electric car is an achievable goal. As many international automakers are currently focused on the latest technologies, the Chinese automakers have not had much of an opportunity to make their mark in the mass market. There are exceptions though. 04aeff104c
